

When September "Desert Life"

Visit "[Desert Life](#)" on MotoLyrics.com

So silently walking in the sand
I try to make a shadow with my hand
I'm lost again in desert land
And slowly the light begins to fade
I wait another endless day
Chorus:
Desert life is give and take (desert night & day)
The sun's always up there
Desert life is give and take
The sun's always up there

And slowly the seasons start to change
I seek the whole wide angle for rain
But walk back to my cave again
I can not recall where I came from
So I just have to carry on
Chorus
