This is careless.the cracks in my skin are starting to show. I'm burning up, help me out, I could really use a hand about now (Don't leave me hanging, I'm not gonna stay here). Reach higher - reach. Don't be afraid if I pull you down (cause I will). I'll put things right, right back into a corner, I'll put things right, you're not getting away with this, right back into place. I hope you like the niche you've carved. I'll put things right for everyone you ever hurt. Reach higher - reach. Don't be afraid if I pull you down (cause I will).
