Arise, arise  
Come from far away  
Turn around and come  
Arise and come  
To my body  
Your wickedness may rise from stars  
Like smoke of time like dust

Arise  
From galaxies to my body come  
Don't return come

Arise  
Don't come near come to me  
Be commanded by Tiamat the mighty

Arise  
Be commanded by Cthulhu the strongest  
Be commanded by Marduk great

Arise  
Woke up from grave on eons in the sea  
Be commanded by god of fire great destroyer

Come, come to my body  
Let the stars overpower me

Let the stars hold my back  
Let the stars conquer me

Let the stars cover me

Arise
