Gate to second earth  
Somewhere in the desert sands  
Eternity, immortality  
My name is life  
Servant of god of sun  
I'm creating symbols  
Still in burning heat  
Key to all minds  
Gate to universe

Everlasting contact  
Cosmic supervising  
Architects from stars  
Secret meetings  
Greatest key to outer space  
Giant transmitter  
Gate of madness  
Gate of agreement

Alien domination  
We are they are  
My name is life  
For how long  
Mystic connection  
Biracial contacts  
Labyrinth of graves  
Grave in labyrinth  
Second earth is waiting  
Among stars and planets

Where is the key... ?

Brothers will return  
After ages of curse  
Six thousand years  
To rebirth they plan  
To clean universe  
And birth new race...
