And you ask me why I've withdrawn/from your false
shallow words/I think you know what I mean/is this
really all it's for/a temporary smile and a warm
heart/glowing till I see you stumble/crying waterfalls of
tears/I'd like to take a knife to your watering eyes/but
I'm not sure it's as harsh as the act you've worked so
hard for/willing to take a life/for your acceptance/and
judges of your performance/are the same kids who
love the corruption/needless to say I've seen this one to
many times/don't ever tell me that I'm not listening/if I
hear it one more time I just might burn this whole place
down/maybe someday, the claims that you make about
yourself/will come back to slap you in your face/but if
not I might oblige/full force so you can taste despise/I'll
be sure to end with a grin and a welcome/we hope that
you'll come back next time
