Thought my feet were on the ground
Till I heard that angel sound
He's a loner and a real mean cat
Only angels play like that
I know you've heard of King Creole
He got nuthin on that easy roll.
Opened up on Adams farm
Broke in mountains and then moved on.
I have heard some people say
He got booked back to play Doomsday
What's his name?
Angel Easy.
Brought the ice age played it so cool
Played Atlantis, blew it apart.
Angel Easy, see what you've done
It is timeless, you are the one.
