All the things that I refuse
There isn't anything wrong with getting your party on
I'll be a radiator, just like you
Hey, do you know a guy named Crouton?

[Chorus]

Just like a chainsaw, it's teeth cut in
I won't believe this is the end
Can I give you some good news?
If it's too loud, well then you must be too

Get your friends together
Our spirits are will live forever
7, 6, 5, 4, 3, 2, 1
Just one more day, not a ton

I'm taking over
Always the same
You fall down at the beauty of the Lord
You struggle to find your faith

[Chorus]

If you believed
You can't live for yourself
Feel your every heartbeat
It's in that Book on the shelf

I hate feeling like this
If I could feel your power
It can't stop, it can't stop. Here it is!
I must confess that I feel like a monster!

It's scratching on the walls
In the closet, in the halls
The sound your making is so beautiful
There goes Satan, out of your soul!

[Chorus x3]
