We all gotta die  
You ain't got time  
To sit there & relax  
Before Jesus comes back

You know, when He does  
I think you should've  
Accepted Him sooner  
Before you got the booter

You wanna go to Heaven  
Time wise, it's close to 11  
I got saved when I was 7  
This song is real & I'm really rappin'!

You ain't got time  
To lay there & lie  
Around wonderin' why  
You didn't make the choice  
To make some noise  
About the Holy Ghost  
He matters the most  
No need to boast  
FINE! Go eat your toast!  
But, before you know it,  
Jesus will kick you with his toes  
Into the firey pits!
