Get on the go over and done plotting the plan of attack  
It's time to fly over the stage high above each Marshall  
stack  
Passing the guard making the move scale the P.A. to  
the top  
End the first verse past the bass bins not fearing the 30  
foot drop  
Thrash to kill blood will spill  
Now that you've met your match and nothing will  
suffice  
Airborn offering thrashing sacrifice  
Stealing the show eyes of the crowd focus of activity  
Forty feet high moment of fame going down in history  
Begin the flight splitting the smoke a swan dive into the  
sky  
Tumbling down head over heels listening to cracking  
bones cry
