

Whirlwind Heat "Orange"

The night time is not the right time,
It's time to get worked up.
I don't imagine you could tell,
about my conversation cuts.

This is a good day to lie.
This is a good day to die.
This is a good day to whine.
This is a good day to cry.

The white stuff is the right stuff,
It helps to get worked up.
And if we can't get alone,
then I won't keep you up.

This is a good day to lie.
This is a good day to whine.
And this is a good day.
