Another night where I don't have you by my side
You were my light in my lonely days
Tears go around my eye
I ask me why you didn't stay

It's too late to love you, too late to forgive you
Too late to give another chance
I would like to see you more times
Too see once again your eyes

I want to be by your side and dance with you all night
I will hold your hand until the very end of time

When I see you I get my memories back
When we were together, when you said we will be
forever
When I see you, you make all my dreams come true
You were all my sense, but I'm still not cured

Just a chance which wasn't taken, just a phrase
Which words didn't mean, just a sorry that you can
accept
Please lets have more years

I want to be by your side and dance with you all night
I will hold your hand until the very end of time

When I see you I get my memories back
When we were together, when you said we will be
forever
When I see you, you make all my dreams come true
You were all my sense, but I'm still not cured

I just want to know why you leave me without word
We were strong, but it seems we have lost

I want to be by your side and dance with you all night
I will hold your hand until the very end of time

When I see you I get my memories back
When we were together, when you said we will be
forever

When I see you, you make all my dreams come true
You were all my sense, but I'm still not cured
