Gotta brand new thing that's sweepin' the nation
A new improved video sensation
Gives you everything that you'll ever need
A fanzine for people who don't even know how to read

Now there's something worthwhile on t.v.
Unplug that cable put on channel three
Get the vcr you can hardly wait
To sit back on the couch get ready to vegetate

[Chorus:]
Flipside [4x]

Forget about the world and impending doom
Every band you've wanted's in your living room
Got the Flipside video it's wild as can be
Forget the VJ's and turn off MTV
