I told you once just leave me alone
You're so hung up, your life's on the phone
Get me up just to let me down
Tie me up and slap me around

[Bridge:]

Bringin' me down, bringin' me down,
bringin' me down make it last all night
Bringin' me down, bringin' me down
Bringin' me down, I am all right BUT

[Chorus:]

You've got a problem [3x]

All shook up and ready for more
Your house has a revolving door
Got my coat and my fly
Look at me I'm such a macho guy

[Bridge/Chorus/Lead/Bridge/Chorus]

There's all too much for me to take
Bend me, shape me, watch me break
Drivin' sister, soft to the touch
But she's much too much on her clutch

[Bridge/Chorus 2x]

All shook up and ready for more
Your house has a revolving door
Got my coat and my fly
Look at me I'm such a macho guy

There's all too much for me to take
Bend me, shape me, watch me break
Drivin' sister, soft to the touch
But she's much too much on her clutch

[Bridge/Chorus 2x]
