[Intro]

But I could be your band-aid

[Verse 1]

Gave it your all  
Cause the life and in love  
You believe it's all or nothing at all  
So you fight through the tears  
But he's never there  
Catching your fall  
Catching your fall

[B-Section]

Put your heart on the line  
Cause you didn't know  
That the love that you found would be fools gold  
You deserve better girl  
I could see that you're hurting girl

[Chorus]

I can't begin to understand the way you feel  
It might just take a little time for your heart to heal  
And girl I know that I can't take away your pain  
But I could be your Band-Aid  
But I could be your Band-Aid

[Verse 2]

Straight to the heart  
Like medicine I'mma be right here  
Erasing your scars  
I could cover you from all the rain  
Be your protection  
You'll never hurt again  
Never hurt again

[B-Section]

Put your heart on the line  
Cause you didn't know  
That the love that you found would be fools gold  
You deserve better girl  
I could see that you're hurting girl

[Chorus]

I can't begin to understand the way you feel  
It might just take a little time for your heart to heal  
And girl I know that I can't take away your pain  
But I could be your Band-Aid  
But I could be your Band-Aid

[Verse 3: Roc Royal]

It's Double R!  
Tell me where it hurts love  
Let me dry your little tears  
Clean your wounds up yeah  
Baby this is meant to be  
It's just a shame it took pain to lead you to me

[Bridge]

I took the pressure off  
And relieved the pain  
Baby wounds and all  
I'll make em fade away  
Away

[Chorus]
