Oh can't U see  
I've got you on my mind  
They say that love isn't bad  
And it could be true since I met you

Cause the world has been  
A much much better place  
There's a smile on every face  
And the sun shines through when I look at you  
Girl it's true

What a wonderful way to feel  
Something you got makes me want to know  
Something you do makes this feeling grow  
Having you near is sensational magic  
I love it

Oh can't U see  
I've got you on my mind  
They say that love isn't bad  
And I just don't care if you are there by my side

What a wonderful way to feel  
Something you got makes me want to know  
Something you do makes this feeling grow  
Having you near is sensational magic  
I love it

Oh can't U see  
I've got you on my mind  
They say that love isn't bad  
And it could be true since I met you

Cause the world has been  
A much much better place  
There's a smile on every face  
And the sun shines through when I look at you

Oh can't U see  
I've got you on my mind  
They say that love isn't bad

And it could be true since I met you
