What's the point at all?  
Paint a castle  
Paint a castle

I wanna exit, exit this  
I'm threshing with a metal schtick  
What I did I did for simia  
Blah, blah, blah on the idiot drugs  
What I did I did for simia  
Blah, blah, blah on the idiot drugs

I waited in the shallow safe  
Yeah on the lips of atlantic breaks  
You wait and wait but never say never (never)  
Blah, blah, blah on the idiot drugs

Crass synth beauty with a shyness so extreme  
Throwaway girl an indispensable machine  
Crass synth beauty with a shyness so obscene  
Throwaway girls indispensable machine

Blah, blah, blah on the idiot drugs

Some say, some say  
I've gone the wrong way

But I suspect  
Sitting in the back  
Traversing through these grey veins  
I'll find my bodhisattva  
I'll find my bodhisattva (talk)  
I'll find my bodhisattva (talk)  
I'll find my bodhisattva (talk)  
I'll find my bodhisattva (talk)  
I found my bodhisattva  
Right now
