I blew it, and if I knew what to do then I'd do it,
But the part that I have I'll get to it, and forever her is
over for me.
Forever is just a word that she said that means never,
To be with another together, and with the weight of a
feather it tore into me.
Then I knew it, all the work that it took to get through it,
On the wings of a feather that flew it, then on to my
shoe, come up into me.

Well,

Everybody's reaction is changin' you, but,
Their love is only a fraction of what I can give to you.

So let's do it, let's get on the plane and just do it,
Like the birds and the bees, a-get to it, let's get outa
town and forever be free.
Forever, a word that we could say together, it could
change if you want for the better.
Just tug on my shoulder and lay down next to me.

I blew it, and if I knew what to do then I'd do it,
But the part that I have I'll get to it, and forever her is
