The end of the night seems so long and hard to bear  
And the blood upon my hand cannot be my own

Wait for the chance that has been given to you  
Now leave this obstacle of fate

Walk across the field of light  
Leaving no traces on it's ground  
Dream tomorrow, come inside with us

For this second is now captured and frozen  
In a secret place, hidden from the day  
Time is everything  
It stands it's strain  
Feel the darkness drawing near

Breathe it's air  
Like the rain that falls  
Broken up yet frequently...

Just one last touch  
As the curtain falls down

To halt the wheel in it's endless spinning  
Hold twilight until dawn  
To stop the stars in their skyward crossing  
And the sun from growing cold
