Expect us [x6]

If you are righteous we will find you and kill you  
If you are righteous we will find you and hurt you  
If you are righteous you deserve what you get  
You better spend your money because we do not forget

Never be righteous always be anonymous you get away  
with murder and you fuck way more chicks  
Never be righteous always be anonymous steal your  
identity and everyone will suck your dick

If you are famous we will find you and kill you  
If you are famous we will find you and hurt you  
If you are famous you deserved what you get  
You better spend your money before we hack your  
phone

Never be famous always be anonymous you get away  
with murder and you fuck way more chicks  
Never be famous always be anonymous steal your  
identity and everyone will suck your dick

Expect us [x4]

(Expect us, kill you)

If you are famous we will find you and kill you[x2]  
(Expect us)

Never be famous always be anonymous you get away  
with murder and you fuck way more chicks  
Never be famous always be anonymous steal your  
identity and everyone will suck your dick
