I love myself, I am the best
I got it made, now you're impressed
But look what it's done to me
Is it good? No, it's great.
Well, it's a little too much too late.
I just dig my own grave,
because everything is

Fading away, baby,
Don't lose your head!
Is it good? NO!
Is it great? YES!
Do I care? NO!
Let them all eat cake~

I got myself, I got my friends
I got a life, now I'm in Hell
But look what's become of me
Is it good, good, good?
No, it's great, great, great
But it's a little too much too late
Party on, 'till the dawn,
Because everything is...

Fading away, baby
Don't lose your head!
Is it good? NO!
Is it great? YES!
Do I care? NO!
Let them all eat cake~
