With every single kiss  
I'm going to slit my wrist  
With every single cry  
I'm going to say goodbye  
Goodbye  
Slit my wrist

When you see me in the street don't masturbate just let  
me go  
Under the covers think of another I won't be there let  
me go  
You'll never have me it's a sad day in your own mind let  
me go  
I'm not a real man I'm a figment of your imagination  
whoa just let me go  
Whoa just let me go

With every single kiss I'm going to slit my wrist  
With every single tear I'm going to say goodbye, my  
dear  
Slit my wrist

Whoa just let me go[x2]  
With every single kiss I'm going to slit my wrist  
With every single cry I'm going to say goodbye  
Goodbye  
Slit my wrist
