"Carry On"

Visit "[Carry On](#)" on MotoLyrics.com

No time to waste
No time to lose
The Master calls and we
Must do what we must do
An empty world is aching
For the good news
And just like Him
We must share His love again

We will carry on
Follow the way of the Master
We will carry on
And do what must be done
Carry on
Reach with love for our brothers
We will carry on
All in the name of the Son
With open hearts
And gentle hands
We can soothe the troubled soul
And dry the lonely tear
With his love inside
We can calm the fear
There is so much need
We must sow His seed
There are hungry people we must
Feed

We will carry on
Follow the way of the Master
We will carry on
And do what must be done
Carry on
Reach with love for our brothers
We will carry on
All in the name of the Son
