There was something missing  
In my life in my soul  
Then You came like a falling  
Rain  
And filled this heart of mine  
Now I can feel it start to  
Overflow  
It's overflowing now  
Cause You gave all you had for  
Me  
You gave all you had for me  
You gave all you had for me  
Nothing can take this love  
Nothing can take this love  
From me  
Nothing can take this love

Only You could have changed  
Me  
Sent the clouds from my eyes  
Now I see things in a different  
Way  
Since I gave my life to You  
Now I know the love I'll never  
Lose  
Never lose

Cause You gave all you had for  
Me  
You gave all you had for me  
You gave all you had for me  
Nothing can take this love  
Nothing can take this love  
From me  
Nothing can take this love
