"On The Ceiling"

Visit "[On The Ceiling](#)" on MotoLyrics.com

I need you more now
More than you've ever needed me before
Don't let me down now
I'm on the ceiling
Don't pull me back down to the ground

the answers I've found
Were crueller than anything I've seen before
And I never thought that you would call
(you wont get high with me at all)

I see you more now
More than you've ever looked at me before
Don't care about me now
I'm on the ceiling
Don't pull me back down to the floor

The answers I've found
Were cruler than anything I've seen before
And I never thought that you would call
You won't get half of me at all

Let's Go!

I need you more now
More than you've ever needed me before
Don't let me down now
Please don't, please don't pull me down
Please don't pull me down
