I can't hold on to what I've found  
Some broken glass lays on the ground  
I can't hold onto what's outside

Can't take a word that you say but I say alright  
Can't take the promise you made but I say alright

Come my way  
Pull the plug and watch me drown  
See me washed up on the shore

I can't hold on to what I've heard  
My friends are hurt it hurts me worse  
I can't hold on this time it's life

Can't take a word that you say but I say alright  
Can't take the promise you made but I say alright

Come my way  
Pull the plug and watch me drown  
See me washed up on the shore  
Come my way  
Pull the plug and watch me drown  
See me washed up on the shore

Just wanna figure out  
Just wanna find myself  
Just wanna figure out

Come my way  
Pull the plug and watch me drown  
See me washed up on the shore  
Yeah yeah yeah yeah

Come my way  
Pull the plug and watch me drown  
See me washed up on the shore

Well on the shore
