VERSE 1

You are the first, you'll be the last
To hold me
And from the time we met
I knew you would be,
Cause when I'm with you
My heart just beats so fast, so slowly
I cant control myself because only you
Can fulfill my every need
Only you can save me
And with you my heart is running free, babe
Listen to me

CHORUS

Ooh...when you love me
Feels so right, when you hug me
Ooh...when you love me
Feels so good
Ooh...when you love me
Feels so right, when you hug me
Ooh...when you love me
Feels so good

VERSE 2

I've never been in love before

Until now

And anything you know

Won't you show me how

Because I want and need your love, so dearly

And it's my strongest prayer to make you see that

Can fulfill my every need

Only you can save me

And with you my heart is running free, babe

Listen to me

CHORUS (repeat till end)
