We share interspace one heart
We have a lot in common
We kissing we had a lot of fun
We had a lot to talk about
Then I talk to myself
Then I come back

Verse 1

You my love joy
Then I get carry away
Thought never free
When you walk away
No turnback
Cause you had your chance
I know we be together more
Then I could chance with you
Just bein me you know my heart won't turn back
If you want to talk to me
Should we split only one left you know I come back
