Hey Deb
Uh huh
Thank you for being woman enough to come
Whitney, what's this all about

I know he's leaving me for you
Who said that, who told you that is true
What is he telling you could it be the same things that
he told me
He told me that he loved me

I heard that
He told me I was beautiful
How did you know? How did you know?
'Cause I've played that scene before

This is a retake of my life
I was his star for many nights
Now the roles have changed
And you're the leading lady in his life

Lights, camera
Now you're on
Just remember you've been warned
Enjoy it now 'cause it won't last
Same script different cast

What you're saying could be true
But how can I take advice from you
I'm not hating but I wish the one before me
Would have warned me too babe

Don't say no more la la la la la la la la
Uncover you're ears girl
I'm not listening la la la la la la la la
But I know you hear me
Maybe my reasons are wrong but I know that you
believe me

This is a retake of my life
(This is a retake of my life)
I was his star for many nights

(His star for many many many many nights)
Now the roles have changed
And you're the leading lady in his life

Lights

Now you're on
Just remember you've been warned
Enjoy it now 'cause it won't last

It's your fault, you didn't love him enough
That's the problem I loved him too much
And when you love him he becomes unattracted to you
Oh no, he's changing now he'll prove you wrong
(No you won't)

So go away, leave us the hell alone 'cause he love's me
He'll hurt you
He'll stay with me
He'll leave you
For sure, for sure

This is a retake of my life
(Retake of my life)
(Yes it is)
I was his star for many nights
(I was his star for many many many nights)
Now the roles have changed
(Now now now now now now the roles have changed)
(And I'm the leading lady in his life)
