Babyface & D. Simmons
I lost my heart A long time ago
You make me feel
Like no one had before Boy you make me love you
Then you walked out the door
Well I will not rest Until you say I am forever
yours
Chorus:
And boy I won't stop at nothing I won't give you up and
You've gotta feel sometimes I know I will not love again
Until you come back
Come back, come back to my arms Till you come back
to me baby
Until you come back (to me) Don't care how long It's not
important to me
Don't care how far Love's never too far for me I just
might be crazy

When it comes to my heart But I can not rest Until the
day we're no longer apart
Chorus
Bridge: Nobody plays with my heart You can't
walk away from it all
You can run but your heart cannot hide Cause it knows
you belong in my life
Chorus
