You can hear it in the street, see it in the dragging feet
The word is gettin' out about control
Spies they've come and gone, the story travels on
The only quiet place is inside your soul

From tree to tree, from you to me
Travelin' twice as fast as on any freeway
Every single dream, wrapped up in the scheme
They all get carried on the relay

Relay, things are brewin'
Relay, something's doin'
Relay, there's a revolution
Relay, relay
(Hand me down a solution, yeah)
Pass it on, come on, a relay

Someone disapproves, what you say and do
I was asked to see what I could really learn you
Don't believe your eyes, they're tellin' only lies
What is done in the first place don't concern you

From tree to tree, from you to me
Travelin' twice as fast as on any freeway
Every single dream wrapped up in the scheme
They all get carried on the relay

Relay, things are brewin'
Relay, something's doin'
Relay, there's a revolution
Relay, relay
(Hand me down a solution, yeah)
Pass it on, pass it on, pass it on, hey you, pass it on

We're on the relay, get a movin'
Get on a movin' on
The relay, the relay
The relay, the relay
