Entwistle)

Henry Pond had no fun
Had a face like a currant bun

This adolescent little fella
Was nicknamed by his friends, "Old Yella"

The doctors gave him creams and lotions
To try to sooth the boys emotions

But all in vain the acne stayed
Henry's hopes began to fade

Then, when just about to crack
He found another cream - Medac

When Henry in the mirror peered
His pimples all had disappeared

Henry laughed and yelled "I got 'em!"
"Me face is like a baby's bottom
