

Who "Water"

The foreman over there hates the gang
The poor people on the porch get it so rough
The truck driver drives like a devil
The policemen - they're acting so tough
They need water
Good, good water
We need water
And I'm sure there ain't one of us here
Who'd say, "No," to somebody's daughter
(No... no... no... no... no...)

Sampson seems sorta sweaty
They draftsmen - they smudged their work
The captain of a ship is swimming
Then just wore off a keen bank clerk

{Chorus:}
We need water
Good, good water
We need water
And maybe somebody's daughter

C'mon, gimme good water
C'mon, gimme good water
C'mon, gimme good water
Please don't refuse me, mister
I've seen your daughter at the oasis
And I'm beginning to blister

A Chevrolet just made steam
Your crop is laying foul
My grass skirt's lost it's green
I'm alive, but I don't know how

{Chorus}

{Guitar Solo}

Gimme good water

Indian Lake is burnin'
New York's skyline is hazy

The River Thames is turnin' dry
The whole world is a-blazin'

{Chorus}

Ah, gimme what I need

{Guitar Solo}

Please, water, water, water, water, water, water

{Guitar Solo}

Gimme water

Water

Water

(Water...)

And I'm sure there ain't one of us here

Who'd say, "No," to somebody's daughter

(Oh, no)

Whoa...

No, no, no, no, no...

No, whoa
