Take me now
To tear up the town
And burn our bridges down
Burn it all down

Cause I'm so aggravated
I swear I hate it
Scream it out loud you keep the fame cause it's
overrated

Waiting now
Standing in line, well get in the show somehow
Just fight through the crowd
Cause this thing is so contagious
You can't contain it
Scream it out loud you keep the fame cause it's
overrated

I need to find a reason
Why do I hate it
It seems to me that everything's overrated
So I'll be found
Far from this town
Burning all our bridges down
Burn it all down

Cause I'm so aggravated
I swear I hate it
Scream it out loud you keep the fame cause it's
overrated

It's overrated [x4]
