(Frantz/McGee/Treager)

As you stand there
Searching, finding, loving
The one that binds us
Together, we are one
Separate we fall to the perils
Separate we fall to the perils
Need
All I want
All I love
All I care
United in faith
Separated by sin
All I need
Faith twisting faith

Upon itself
Roadways cross in faith
Bending, turning, changing
Destiny is all up to you
Destiny is all up to you
Need
All I want
All I love
All I care
United in faith
Separated by sin
All I need
Time is death, only
Death is a life
Together you me
Need
