(Frantz/McGee)

Flowers fade, it's nature's way  
So what can we do about this  
Laugh as you please, but you may kill me  
With your sour sweet kiss  
Drifting...out to sea  
I think I left my room  
Drifting...who can it be  
I think I left my room  
May be half untrue  
There's things that I just won't do  
May have to look to you  
Stare  
Another day, skies of gray  
And it must be pure bliss

A leafless tree, made my life free  
But can I pass up this  
Drifting...out to sea  
I think I left my room  
Drifting...who can it be  
I think I left my room  
May be half untrue  
There's things that I just won't do  
May have to look to you  
Stare  
And we stare  
And we get new eyes  
And we stare  
And we get new lives  
Drifting...
