If were really telling the truth  
things don't look the way that they use to  
these conversations long overdue  
cause i cant look in through  
cause were all I knew

I was your sunlight, but n ow I'm just a shade  
I was your blue sky, Now I'm just the rain  
I was your favorite song, but Now I'm overplayed  
If tomorrow's gonna be the same  
I'll see you yesterday.  
I'll see you yesterday.

Let's get lost in our memories  
That's the safest place we can be  
If this is the end of our story,  
I don't wanna read it, I just wanna keep it well.

I was your sunlight, but Now I'm just a shade  
I was your blue sky, Now I'm just the rain  
I was your favorite song, but Now I'm overplayed  
If tomorrow's gonna be the same  
I'll see you yesterday

i'll see you in my dreams  
and in every single moment you miss something to me  
just like the photographs  
I'd keep the very best  
cause baby that's the way I will remember it

I was your sunlight, Now I'm just a shade  
I was your blue sky, Now I'm just the rain  
I was your favorite song, Now I'm overplayed  
If tomorrow's gonna be the same  
they said tomorrow's gonna be the same  
I'll see you yesterday.  
I'll see you yesterday.
