It's like you're holding my heart in your hands  
And for a moment, I can't breath  
More now forever there in your eyes  
Oh the way you move me, I can't help it

I tremble, every time that we touch  
It's a shock to my soul, I'm shakin all over  
Baby it's just too much  
Cause your kiss, always leaves me like this  
I have no defenses, lost all control  
Something about your love makes me tremble  
Oh I tremble

Baby for the first time I'm so completely lost  
Somehow I'm right where I belong  
Feel you like sunlight rushin through my veins  
No one else could ever make me feel this way

I tremble, every time that we touch  
It's a shock to my soul, I'm shakin all over  
Baby it's just too much  
Cause your kiss, always leaves me like this  
I have no defenses, lost all control  
Something about your love makes me tremble

I'm falling apart here in your arms cause I need you  
Look at me baby, I just can't help it  
I love you

Oh your kiss always leaves me like this  
I have no defenses, lost all control  
Something about your love makes me tremble  
Oh I tremble  
Oh I tremble
