You Are The In The Sea Of My Heart  
Whyte Shadow

i can still remember that night,  
when i just watched you danced away, and away  
and the song just seemd so long  
when i watched you in some ones arms  
wishing that i was her,  
and then i herd my favorite song  
i looked at you and you looked at me too  
and i knew this song was made for us  
and i reached my arms to you  
but some one took you before i could

chorus  
can this night be our night tonight  
when i will be holding you  
wont let that song pass again with out you in my arms  
you may think that i dont care for you  
but my heart is waiting for you  
cause your the wind in the sea of my heart

if you were in my arms right now  
i could make your way for you so light and so bright  
i belive our love was meant to be  
for we are right here tonight to make our destiny  
compleate

chorus  
oooh yeah  
chorus repeat x2
