we keep on talking Â‘bout some shitÂ‘bout some things
that we did
weÂ‘re walking different ways
our memories disappearing in a haze
we keep on doing what we want and our life is just a
haunt
'cause if thereÂ‘’s a party going on
we keep the party going on

and when we meet i fall in in love again
i start to think about the time we had

by the way do you know that you liked me
by the way do you know i love you
by the way do you know who you were
by the way do you know who i was
now itÂ‘’s very hard to forget the times that we had
i see you walking with another guy and have to ask me
why
what was wrong what have i done
it doesnÂ‘’t matter youÂ‘re gone
donÂ‘’t hurt me please donÂ‘’t hurt me so cruel
and please donÂ‘’t treat me as a fool

and when we meet i fall in in love again
i start to think about the time we had

by the way do you know that you liked me
by the way do you know i love you
by the way do you know who you were
by the way do you know who i was
