I often sang a song to show you You're my only one
Every minute I spend without you
Needs an hour to make up for
You're my reason to say no way
I'll get back to her and I stay
And when I'm running over time
I feel like I've been doing a crime

And here's a question
Listen to me Where is the place that I wanna be?

The place I wanna be, The place I wanna be, The place I
wanna be is by your side

See me walking down the street, My head hangin' in
mystery
I am not a typical guy
Well I am young and I'm not shy
My second given name is FUN

Just be carefull I'm on the run
And when I'm drinking over rate
I sometimes try to drown my hate

And here's a question
Listen to me Where is the place that I wanna be?

The place I wanna be, The place I wanna be, The place I
wanna be is by your side

Take me, shake me, rape me, till the dawn
For this, moment, lightness, is gone

Solo

And here's a question
Listen to me Where is the place that I wanna be?

The place I wanna be, The place I wanna be, The place I
wanna be is by your side
