I want my good time up forever - maybe that's enough  
for me  
So everytime I take a flivver - I got my return journey  
There's a girl she's very ok - always fix me up with food  
We make noise in by the yard - & we sell hoochie-  
koochie too  
Bonaventure-I've been everywhere  
Bonaventure-it's a wide wide place  
Born to rule it-maybe you don't care  
About where you go or about where you stay

My good friend boy he's a friend - yeh he's a boy &  
he's a face  
& his attitude is that - we can walk 'round any place  
We don't get in by the window - we gots tickets &  
grease pay  
& we make our loot a loot a - skankin' right enough  
from way

I don't run & I don't hide - when I run from you  
I don't run & I don't hide - making sure I'm up tonight  
Never run I never hide - I'm blue blue blue  
Never run I never hide - I know which way is up tonight

(where do ya think your going my friend I mean now,  
eh?-everywhere)

Will you hush my naughty mouth - & bar my journey out  
of bounds  
Take the mince out of my step - & hold my tongue &  
shoot me down  
If that takes my time & money - still don't see how I lose  
out  
Looking at my next contender - makes me laugh until I  
shout
