Come friday come friday...
The telephone was ringing & a ringing
But my buddy was not on the line
Now Joe is "no, I'll be no" but he's talking white alright
He said I'll be grafitis so I'll go a for tonight
I took off my camouflage when I left town
But no way could I disappear
I've seen it in a movie them all making me a mock
For a long long shock in a cooly cooly way
Hey what's the news hey what's the news
Oh why the news I could have paid up yesterday
Now you go get your monkey coat
I hope you get your pearls
Now Steven gets his evens
I done what I done to whirl

Now they say there's none today
Come back tomorrow
Speaking with a face just like a clock
When he's on his run
Everybody in the street
Clucks a tweety tweety tweet
Say what say what come back friday
