A red light-a ravers redlight-a ravers redlight-
A ravers redlight-a ravers
We're ravers delight-we keep up all night
Don't have le-legs yeh we spend every day
Drunker in light-turn black into white
& when we say rave then we rave when we rave

There's no good or bad boys - there's only what is boys
So show us what you really think that we are
There's no good or bad girls - there's only what is girls
So show us what you really think that we are

I'm spending all over town now I'm setting my sights
I'll chew on the good book & set it alight
What good is li-living is larger that life
We're lovers delight & we go in the night
& rants like a dog & sing like a cop
I can switch myself on yeh & switch myself off
I'm always in tune to my feets to my top
I can dance like a raver & sing like a cop

One thing
& one thing (a million)
& two thing (a billion)
& two thing (a million)
& three thing (a billion)
& three thing (a million)
& three thing (a billion)
& four (& more)

There's no good or bad girls - there's only what is girls
So show us what you really think that we are
Tomorrow my not-it may not be the same
I've taken it once & I'll take it again
I've only got one boy that's myself to blame
Tomorrow my not-it may not be the same oh
