"All Things"

Visit "[All Things](#)" on MotoLyrics.com

All things just keep getting better
You came into my life
and my world never looked so bright yeah
it's true, you bring out the best in me
and now I can clearly see

Days keep getting better
Nights keep getting better
Days keep getting better
Nights keep getting better
it's true! it's true! it's true true true

When you are around, When you are around
All things just keep getting better
When you are around, When you are around
All things just keep getting better

See it's more than one day (more than one day)
That you'll be right here beside me (stay beside me)
It's you and all of the things you do
that makes everything alright

'Cause
Days keep getting better
Night keep getting better
Days keep getting better
Nights keep getting better
it's true! it's true it's true true true

When you are around, When you are around
All things just keep getting better
When you are around, When you are around
All things just keep getting better

When we are together baby(together baby) oh yeah
things keep getting better.
Better baby better baby,
When we are together baby, 'gether baby.
things keep getting better baby, better baby.
When we are together...

When you are around, When you are around
All things just keep getting better
When you are around, When you are around
All things just keep getting better

All things just keep getting better
All things just keep getting better
