Well, my friends  
Feel it's their appointed duty  
They try to tell me  
You're only tryin' to use me

My, my answer, baby  
To all that use me stuff  
Said I want to spread the news  
That if it feels this good getting used  
You just keep on using me  
You use me up, until you use me up

An' now my brother  
He sat me right down and he talked to me  
He said I'm not lettin' me  
Lettin' you just walk all over me

I'm sure he meant well  
When our talk was through  
I said brother if you only knew  
You wanna be in my shoes  
You just keep on using me, baby  
Until you use me up  
Until you use me up

No, it's true you really do abuse me  
Get me in front of your high class friends  
Then you walk all over me  
But baby, baby, baby  
When you love me I can't get enough

Lord, if you only knew  
You wanna be in my shoes  
You just keep on using me  
Lord, until you use me up  
Until you use me up  
Bud use me up, use me up  
Yeah, yeah, yeah
