### "Long Island"

Oh my soul craves to go home  
to long island shores again  
take me back to old north Walk?  
to breathe in the harbor wind.

#### *[CHORUS]*

I'll be leaving Tennessee on the first plane  
Sunday gone to my family reunion  
There my father preached at the church  
On the corner of Old Nickels Road  
He raised four children in a green house  
We are all well and now we are all grown

#### *[CHORUS]*

There my mother Sharron lies deep in the earth of the  
long island shores  
I will visit her grave and plant yellow roses at her stone

#### *[CHORUS]*

I'll be leaving Tennessee on the first plane  
Sunday gone to my family reunion  
I'll be leaving  
Gone to my family reunion  
Oh my soul craves to go home.
