So this is how, it feels to be, in a war and torn
Between, In my mind the battle lines are drawn
And I am living in a dream it seems
Struggling with what I feel but never see
The shades of right and wrong are gone

Can You help me find my way home
Cause I am getting in the way cause I'm

Fighting furies, and it's taking over me
Will You fight this for me all again?
And it makes me weary, I was never made for this
Am I fighting furies till the end?

What I say I don't want to say, what I feel I don't
Want to feel anymore
I see an open door but I'm walking in, the dark it
Seems, But there's a fire inside of me giving light, a
Light that changes me, to You

Can You help me find my way home
Cause I am getting in the way cause I'm

Oh oh oh (repeat 3x)
Till You come for me

Oh oh oh (repeat 3x)
Till You come for me

Oh oh oh (repeat 3x)
Till You rescue me
