I've been working every day
I've been waiting for time to play
Call up my people
Let's paint the town
Bring that fire
Let's burn it down.

I've been serious all the time
And tonight I lose my mind
I wanna go out and have some fun
I've been working all week but right now
Getting dumb.

Yeah we getting dumb
Get-Getting dumb
Yeah
We go out, get dumb
We drink, get dumb
Turn it up, get dumb
We all getting dumb. [x3]
We all getting dumb dumb

Watch out for the dumb dumb, watch out

Ey!
Uh huh
Ey!
We getting dumb
Ey!
G-g-g-g-getting dumb
Getting dumb, ey!
Watch out for the dumb dumb, watch out

Watch out baby its the next shit (next shit)
Jumbo size its a big shit (big shit)
Get your hair done, get a wig bitch
Extensions, get pretty pretty
Get it get it, girl, get your nails done
Supermodel honey is the outcome (outcome)
Got these boys going dumb dumb
They ain't getting none of my kitty kitty (kitty kitty)

All my shit cause I look nice
Got my chicks and we look nice
Gotta go out have a good night
Got so much soul like my home city
Got so much soul like my home city (city city)
Play that beat for my home city (city city)
Yeah yeah yeah
Yeah yeah yeah

Cause I know, I know
That you've been waiting for the weekend, weekend
So we can party like an animal, animal
So come on, come on baby
Here we go, here we go
And check it out because I

I've been working every day
I've been waiting for time to play
Call up my people
Let's paint the town
Bring that fire
Let's burn it down.

I've been serious all the time
And tonight I lose my mind
I wanna go out and have some fun
I've been working all week but right now
Getting dumb.

Yeah we getting dumb
Get-Getting dumb
Yeah
We go out, get dumb
We drink, get dumb
Turn it up, get dumb
We all getting dumb. [x3]
We all getting dumb dumb

Watch out for the dumb dumb, watch out

Ey!
Uh huh
Ey!
We getting dumb
Ey!
G-g-g-g-getting dumb
Getting dumb, ey!
Watch out for the dumb dumb, watch out

Turn it up, burn it up
All my drinkers sip it up

I see nothing in your cup
Come on baby, fill it up
Let's fill it up, let's get it up
Got that purple, hit it up
Where's my table; set it up
I got my crew, we rolling up
You know the name, no shame in mine
I got that, mhm hm, all the time
I can do it anytime
Me and my crew on the grind
Girl you know what time it is
We keep it rocking marvelous
We stay on top like finalists
Burn up the floor like arsonists

Cause I know, I know
That you been waiting for the weekend, weekend
So we can party like an animal, animal
So come on, come on baby
Here we go, here we go
And check it out because I

I know, I know
That you been waiting for the weekend, weekend
So we can party like an animal, animal
So come on, come on baby
Here we go, here we go
And check it out because I

I've been working every day
I've been waiting for time to play
Call up my people
Let's paint the town
Bring that fire
Let's burn it down.

I've been serious all the time
And tonight I lose my mind
I wanna go out and have some fun
I've been working all week but right now
Getting dumb.
