Lord, come down and help us out  
Send us an angel, help us out  
S.O.S, help us out  
Lookin' all the round and I'm watchin' the world

People killin', people dyin', people lyin', people blind  
People don't see the sign, watchin' money all the time  
Get the pennies, get the dimes, get the dollars is the  
mind state  
Of the human race, people on the paper chase

The environment is fragile and we been on the gradual  
Declinin' in a lifetime or lose the battle  
Get burned by volcanoes, get blown by tornadoes  
'Cause mother nature signals is tryna warn NATO

We got a new terror threat, it's called the weather  
More deadlier than chemical and nuclear together  
It's hotter in the winter, even hotter in the summer  
Jesus or Buddha, somebody come and help us out

Lord, come down and help us out  
Send us an angel, help us out  
S.O.S, help us out  
Lookin' all the round and I'm watchin' the world  
changin'

Open up your eyes  
You can see things rearrangin'  
The world is dyin'  
And if they say it's gonna be alright, them people are  
lyin'

People trapped behind the gates, ignorance in their  
state of mind  
'Cause they formulate a plan just to penetrate us  
You see they stimulate us with fear, manipulate us  
Each year they dominate, dividin' us like calculators

And we can't add it up 'cause calculators do the math  
for us  
And here they come choppin' down, choppin' down our

rainforest

Fuckin' up our air for us, they don't really care for us  
And we can't complain because the only one to blame  
is us

The gas is risin' up but we keep on fillin' up  
CO2 levels got the whole planet heated up  
It's blazin' in the winter, even hotter in the summer  
Muhammad, Jehovah, somebody come and help us out

Lord, come down and help us out  
Send us an angel, help us out  
S.O.S, help us out  
Looks like we ain't gon' figure it out

Lord, come down and help us out  
Send us an angel, help us out  
S.O.S, help us out  
Lookin' all the round and I'm watchin' the world  
changin'

Open up your eyes  
You can see things rearrangin'  
The world is endin'  
And if they say it's gonna be okay, they just pretendin'

When the Eskimo gets bit by a mosquito  
Somebody in Miami will get swept by a tsunami  
Rastas in Jamaica will get hit by a quake  
That registers somethin' like 8.8

You see this situations happenin' with our planet  
'Cause twenty years ago we took it for granted  
We should have took advantage and reversed the  
damage  
Instead of just pumpin' and sellin' and slangin' the gas

And while we purchased the gas we was watchin' soap  
operas  
While they steady brainwashed the masses  
'Cause they could make a vehicle that runs off ashes  
But they don't own a patent for that  
And that's exactly what's happenin'

Corruption and bullshit politics  
The planet's gonna die 'cause of bullshit politics  
It's hotter in the winter, even hotter in the summer  
And ain't nobody comin' to the rescue to help the

(The world)

The, the, the, the, the

The, the, the, the, the  
(The world)  
The, the, the, the, the  
The, the, the, hope, the

(The world)  
The, the, the, the, the  
The, the, the, hope, the  
(The world)  
The, the, the, the, the

Lookin' all the round, watchin' the world  
(The world, the world)  
Lookin' all the round, watchin' the world  
(The world)

Lookin' all the round, watchin' the world  
(The world)  
Lookin' all the round, watchin' the world  
(The world)
