Oh, I gave you my love & you told me to fuck-off  
That's what you do, but I still love you  
You're by the phone & I've got to be alone now  
My head is ablaze & still miles lost in space  
I gave you my love, but you told me to fuck-off...  
that's what you do, but I still love you  
I don't need you!  
Leave my happy thoughts!  
Oh, I ate the pill...& I'm here still?  
You sold your soul, but mine will still grow  
You don't share love & you don't feel love!  
I'm already gone
